Where can I find JSTOR or JSTOR Remote?

These are located on the CSU Databases page. There are 2 ways to find this page:

1. Select CSU Databases from the Search & Find drop down menu.

2. Select Find Articles from the center of the homepage. Select subject specific databases from the CSU Databases heading.

Find Articles

Start with...

[Academic Search Complete](#), [Research Library](#) or [Wilson OmniFile](#) to find articles on all subjects.

GALILEO

Browse by Subject in [GALILEO](#) to find other resources to search for articles.

GALILEO Password

If you are using GALILEO off campus, you are required to enter a password. Clayton State students and faculty are to obtain the [password online](#).

Instructions: [GALILEO Password.pdf](#) Video: [GALILEO Password](#) (2 mins)

CSU Databases

The Clayton State Library purchases additional electronic resources to supplement the GALILEO collection. Select one of these [subject specific databases](#) to find articles for your research.

Trial Databases

The Clayton State Library is not offering any trials at this time. Contact [Joan Taylor](#) to suggest a resource.

The CSU Databases page lists the electronic resources we purchase separately from the GALILEO collection. Select JSTOR or JSTOR Remote from the alphabetical list.

Clayton State Library Databases

Some databases below require a user ID and password when accessed from off campus. Clayton State students and faculty are to obtain the password online using the [CSU Catalog](#).
